

Block 5 Transportation and 4 PM Bus Procedures

Block 5 students riding the elementary buses should first attempt to get on the bus that goes to the elementary stop **closest** to their home.

Bus **Number One** that goes to **3rd Avenue and Easton Road** for the elementary students and also provides **overflow** block 5 transportation will **first** take the elementary students to 3rd Avenue and return to school (9 minutes) to then transport **all overflow** block 5 students which will be waiting under the bus port at the middle school. This would be all the students that could not get on the regular buses due to lack of room.

For anyone that does not make the overflow bus: Two 4 PM buses are also provided at the middle school/elementary school loop at 4 PM and leaves at 4:10. Those two buses will transport to **all** Saucon Valley **established bus stops**.
